

PLUMBOB WINCH

SHAFT SINKING PLUMBOB WINCH

GENERAL INFORMATION:

Winch is fitted with a safety ratchet operated brake which automatically locks the drum to hold the load at all times. The load position can be adjusted up or down by simply winding the handle in the required direction. The load movement stops with the winding.

USES:

Ideal for Plumbob lowering in sinking applications. We also supply Plumbobs, stainless steel Plumbob wire and sheaves.

MODELS:

WINCHPBP1800

Wire capacity 1800m
